

# Deno Gettas

Photographer -- Printmaker

For many Good morning, my name is Deno Gettas. I am an artist in Stratford Ontario, and I received a BFA Visual Arts, in Photography and printmaking from the University of Calgary, in 1976.

For many years I shot landscape photography with my Hasselblad camera and my 35mm camera with film and slides. I have over 500 landscape shots on a separate hard drive on my computer. I also do Printmaking.

When I was younger, I was a member of the London Canoe Club and went on canoe trips all over Ontario including Temagami, Algonquin Park, and the Finger Lakes routes. I always shot landscape photography on the trips I took.

I also had a photography business for 15 years and also taught photography and printed landscape photos.

I have created landscape photography images anywhere I have lived. I have never had an exhibition and I am pleased to be able to present some of my images in the Artist of the Month program through the North Perth Arts Council.
